

Public Library Reading Suggestions

Reading over Track Out is vital to your child's success and will help them to come back to school hopefully able to pick up where they left off. Even a few weeks without practice can cause a child to drop a level or two. In the early stages of learning to read, children need so much extra practice in order to making using strategies automatic.

To make it easier for you to find books at your child's particular reading level, I am providing you with a list of books at various reading level. Remember that these books are merely suggestions and that any book your child is interested in reading that you approve of would be wonderful too.
